EXPERIENCE

La Alteña Mexican Restaurant, Chattanooga TN —
Software Engineer and CEO of Sequoia Kanies LLC

MARCH 2024 - CURRENT

Lead solo software engineer, worked as a designer in charge of developing and maintaining all aspects of the company website. Built using Netlify, Typescript, React JSX/TSX, CSS, HTML.

CyberMonk, Remote — *Software Engineer*

OCTOBER 2023 - FEBRUARY 2024

Developed the front end of a Progressive Web App, prototyped in Vanilla JS, React, Google Material Design, Cordova and Capacitor to optimize cross-platform functionality and facilitate IOS and Android native app development. Finalized deployment from prototyping by utilizing React and Capacitor, allowing the team to build native apps via Xcode and Android Studio.

Sims CWW, Trenton GA — *Lead Builder/IT*

OCTOBER 2022 - DECEMBER 2023

Served as company manager and lead builder, overseeing physical construction projects. Additionally, designed and deployed the company website using Google Sites. Provided training to company owners on managing website content and performing updates and debugging.

PodWheels, Chattanooga TN — *Full Stack Software Engineer*

JANUARY 2022 - SEPTEMBER 2022

Developed and debugged full-stack features for a large-scale podcasting company based in Chattanooga. React, JSX, Postgres full stack. Managed project assets, contributed to strategic planning and implementation, and utilized version control to enhance development practices.

HiddenCharmSoaps, Chattanooga TN — *Founder/CEO/Wix Developer*

2021

Co-founded a local soap-making business with my wife, initially selling products at NorthGate Mall and successfully transitioning to exclusive online sales. Personally designed and built the business website using Wix. Responsible for art and photography alongside my co-owner, Viktoriya Kanies.
